The Compliance Management Group (CMG) Acquires EDS Group Package Testing

December 1, 2016

Littleton, MA

The Compliance Management Group (CMG) welcomes increased capacity and expanded capabilities with the acquisition of EDS Group Package Testing. Our goal is to provide our customers with timely and cost effective means to achieve Global Market access. The addition of EDS Group Package Testing equipment and personnel allows us to enhance our service offerings and has decidedly made CMG one of New England's premier providers of package testing solutions.

About CMG

In business for fifteen years, CMG is an independent test lab, A2LA Accredited to ISO 17025, specializing in product compliance, regulatory testing, and certification services. By offering and supporting testing solutions for Electromagnetic Compatibility (Emissions, Immunity, Automotive), Safety, Shock & Vibration, Thermal & Environmental Testing, and Program Management, we provide a comprehensive source for a wide range of compliance testing requirements.

About EDS Group Package Testing

EDS Package Testing is a long established testing facility, offering complete package, environmental, and materials testing services to ISTA, ASTM, ISO, and TAPPI standards, as well as custom designed tests.

At CMG, we are dedicated to providing testing solutions that make the path to compliance as straightforward and efficient as possible. Please visit our website for more information or call to schedule a laboratory tour.
